

WHY SOUTHERN CARE?

1. The owners (Mike and John) are active workers also, doing lawn and shrub applications every day to assure quality applications and identifying what is going on in your lawn each visit.
2. Mike (owner) is a University degreed horticulturist with over 30 years of experience.
3. Lawn technicians do only between 10 and 15 applications per day, giving them time to do your application right. Our technicians have no quotas to meet each day and you get a quality treatment each visit.
4. We treat hedges with our weed treatment. No extra charge.
5. Quality products, custom blended for our soils.
6. No phone solicitation, ever! Eat your dinner without interruptions.
7. Our technicians care about your lawn and shrubs. If they see an issue, they will treat it accordingly and instigate a NO CHARGE follow-up to re-check your lawn and shrubs in a week or two so you don't have to.
8. We want you to call us if you have a concern. In most cases, we will respond in a few hours, not days.
9. Weed treatment all year! Many companies say you cannot treat all year...this is not true.
10. We use non-staining granular fertilizer.
11. We blow off cement areas after treatment to keep your yard tidy.
12. We treat weeds growing in your driveway and walkway cracks at the time of our application.
13. Informative web site, www.southerncarelawns.com.
14. We don't use a pushy sales staff that travels door to door. The lawn technicians who service your lawn also do your initial evaluation. They receive no commissions.
